## Hearing Aid Compatibility Status Report (FCC Form 655)

Reporting Period: January 1, 2010 - December 31, 2010

Filing Confirmation Number: 0004562066

Filing Deadline: January 18, 2011

FRN: 0001630201

Filing Date: 01/06/2011 10:23 AM

### General Report Information

#### Type of Company

Service Provider

#### De Minimis Exception

Did you offer more than two handsets over any air interface to service providers (if you are a device manufacturer) or to subscribers (if you are a service provider) during this reporting period? Yes

Did you offer any handsets to service providers (if you are a device manufacturer) or to subscribers (if you are a service provider) during this reporting period?

#### Company Information

Company Name: Union Telephone Company  
Brand Names: Union Wireless  
PO Box: 160  
Street Address: 850 North State Highway 414  
City: Mountain View  
State: WY  
Zip Code: 82939

Contact Name: Carl Smith  
Contact Phone: (307) 782-4190  
Contact Fax:  
Contact Email: cjsmith@unionwireless.com

#### Filing Agent

Is this report being filed by an agent on behalf of a manufacturer or service provider? Yes

Agent Name: Lukas, Nace, Gutierrez & Sachs, LLP  
PO Box:  
Street Address: 8300 Greensboro Drive, Suite 1200  
City: McLean  
State: VA  
Zip Code: 22102

Contact Name: Pamela L. Gist, Esq.  
Contact Phone: (703) 584-8665  
Contact Fax: (703) 584-8696  
Contact Email: pgist@fcclaw.com

## Product Labeling

Do all hearing aid-compatible handsets include labeling? Yes

Explain:

Do all hearing aid-compatible handsets that are capable of voice communication over any air interface or frequency band that does not currently have hearing aid compatibility technical standards have clear and effective disclosure that the handset has not been rated for hearing aid compatibility with respect to such operations? Yes

Explain:

## Public Website

Does your company maintain a public website describing all hearing aid-compatible models, the ratings of those models, and an explanation of the rating system? Yes

Website address: <http://www.unionwireless.com/pdf/hac.pdf>

Explain:

## Consumer Outreach

Describe consumer outreach efforts in the past 12 months: Union Telephone Company's compliant handset models are publicly identified for consumers and audiologists. Compliant models are listed on the company's web site, and its retail salespeople are trained to assist with complaint digital wireless phones. Written materials, pamphlets and other promotional literature are provided at the point of sale and on the website, addressing the needs of individuals with hearing disabilities. Consumers are given a 30-day trial period within which to try out digital wireless phones to determine whether they will work properly with their hearing aids.

## Methodology for Functionality Levels

- Basic:
  - o These phones are primarily designed for users that just use the phone for voice calls and text messages
  - o They may not have email, Bluetooth, music players, picture messaging (MMS) or mobile web (WAP)
  - o These phones will usually be offered at a low price
- Standard:
  - o Standard phones are moderately priced and offer some additional features over the basic phones
  - o Standard phones will often be offered in varied colors and will always offer MMS and WAP functionality
  - o These phones will usually have a camera and tend to be more durable and offer better RF performance than a Basic phone would
  - o Most Standard phones will offer Bluetooth and music players, but not always
- Fashion:
  - o Fashion phones vary greatly in price and are designed with a fashion conscious consumer in mind
  - o Fashion phones will have a unique style and often be offered in varied colors
  - o All Fashion phones will offer MMS and WAP functionality
  - o Most fashion phones have Bluetooth and offer basic email synchronization from a POP3 account using the WAP connectivity
- Utility:
  - o Utility phones vary from a moderate to high price and are designed to have the type of features that business consumers desire
  - o All utility phones will offer Bluetooth, Good RF Performance and MMS / WAP functionality
  - o Utility phones are normally one of the staple products offered to most consumers since they have a better than average life in use
- Entertainment:
  - o Entertainment phones vary from a moderate to high price and are designed to offer a large number of

- entertainment functions in a single device
- o Entertainment phones will always offer Bluetooth and a media player
- o Most Entertainment phones will offer expandable memory or a larger memory for storing music, pictures and video
- o Varied colors are often offered with this type of phone
- o A software package and USB cable will often be provided to allow synchronization to a computer for music or other data
- Enterprise:
- o Enterprise devices are usually the higher priced phones with the highest amount of functionality
- o These devices typically have the ability to sync with POP3 email services and often offer synchronization with exchange or other corporate style email and calendar services
- o These products will offer some type of media player although it's primary function is to provide the connectivity and messaging features a user will need for personal and business use

### Report Remarks

Union Telephone Company does not operate network facilities utilizing GPRS or EDGE air interfaces.

You have reported the following handset model summary information.

Total number of handsets offered: 85

Air Interface	Fully Hearing Aid Compatible		Acoustic Coupling Compatible Only		Non-Compliant Handsets		Total by Air Interface
	Number	Percent	Number	Percent	Number	Percent	
GSM	17	20%	7	8%	61	72%	85
GPRS	17	20%	7	8%	61	72%	85
EDGE	17	20%	7	8%	61	72%	85
